NOTE 3. GOING CONCERN

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates the realization of assets and the liquidation of liabilities in the normal course of business. However, the Company has accumulated a loss and is new. This raises substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments that might result from this uncertainty.

As shown in the accompanying financial statements, the Company has incurred a net loss of \$1,494,750 for the period from inception to September 30, 2013 and has not generated any revenues. The future of the Company is dependent upon its ability to obtain financing and upon future profitable operations from the development of acquisitions. Management has plans to seek additional capital through a private placement and public offering of its common stock. The financial statements do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts of and classification of liabilities that might be necessary in the event the Company cannot continue in existence.
