As a result of this reverse split, the holders of the Company's Common Stock before the change of control occurred in April 2012 have a relatively small interest in the Company at this time.

5) Financial Statements

See the Financial Statements for the Quarter ended June 30, 2014 attached herewith this annual report as Exhibit A.

6) Describe the Issuer's Business, Products and Services

A. a description of the issuer's business operations;

Axxess, a Nevada Corporation, has in-licensed rights to manufacture and distribute several Health Canada-approved pharmaceutical and natural health products and various products under the TapouT brand, including Pain relief, Nutritional Supplements and Vitamins & Minerals.

Our Own Products

The Company intends to manufacture and distribute in Canada, the USA and other markets internationally both in retail and online the products listed below:

Soropon Medicated Shampoo

Soropon Medicated Shampoo is a treatment for both infants and adults for fungal infections of the scalp such as seborrheic dermatitis and cradle cap in infants.

There are several shampoos meant to treat similar conditions such as, Nizoral, Dan-Gard, SebCur and Polytar, all being offered in the \$20-24.00 price range. The Company plans to employ an aggressive pricing strategy to compete effectively with the other competitors in this market segment, while marketing to all the target age groups.

The Company expects to re-launch Soropon Medicated Shampoo into the Canadian market approximately six months upon completion of further financing. We cannot guarantee that the financing will be available or available at favourable terms to the Company.

TapouT- branded Products: The Company acquired in 2013, the world-wide exclusive license from ABG-Authentic Brands for TapouT Vitamins & Minerals, Pain Relief and Certain Supplements, in return for a royalty rate of 5%.

The TapouT-branded products include TapouT Spray Pain Relief, TapouT Pain Relief Towelettes, TapouT Hot & Cold Reusable Packs, TapouT Instant Cold Packs, TapouT Extreme Muscle Growth Supplement and TapouT Muscle Recovery Supplement.

The TapouT-brand pain relief products use a patented formulation with no chemical binders, and all-natural ingredients. The Company believes this will confer a competitive advantage in the market.

The new products: TapouT Extreme Muscle Growth and TapouT Muscle Recovery are manufactured in the US through Private Label Nutraceuticals LLC and, we offer a premium formula in keeping with the quality and natural ingredients philosophy of TapouT.

Distribution

The Company plans to distribute its products in Canada, the US and certain international markets. The Company is currently negotiating licensing and/or distribution agreements with foreign distributors for the Sales and Marketing of some of Axxess's products in their respective territories. One example of a foreign distribution agreement is with Hard Core Beverages (HCB) of Australia for the TapouT line of products. The TapouT brand is even more recognizable in the Asia Pacific region and the company believes sales will grow quickly in the region. HCB has the rights for Australia, New Zealand, Indonesia and South Korea.

Other Products

The Company plans to add other products in the TapouT line such as Omega-3 fish oil, a Ready-to-Drink protein meal replacement and a protein powder to meet the perceived

high-demand from big-box retailers in the US and abroad, and expects to launch these products in the second half of 2014.

Manufacturing

Axxess does not intend to manufacture any products itself, rather, it plans to use FDA or Health Canada approved contract pharmaceutical manufacturers to manufacture its product line. The Company intends to manufacture its own products in either Canada or the USA in cGMP facilities owned by contract manufacturers, for smooth access into more non-regulated markets overseas. Although the Company competes with other pharmaceutical companies who offer somewhat similar products, the Company believes its products offer some unique components which render its products more attractive to consumers, such as lower side-effect profile or price advantage.

Patents

On September 30, 2013, the Company acquired patents on the methods used to formulate its topical pain relief formula without the use of chemical binders, from Revive Bioscience Inc. In addition, the Company and relies on other proprietary manufacturing know-how for its certain products.

B. Date and State (or Jurisdiction) of Incorporation:

The Company was incorporated in the state of Delaware on April 7, 1997 as CGI Communications Services, Inc. On July 26, 2008, the Company amended its certificate of incorporation to change its name to Axxess Pharma, Inc. On December 6, 2012, the Company reincorporated in Nevada by merging into a newly formed Nevada entity with the same name. The Company now operates as Axxess Pharma, Inc., with Axxess Pharma Canada, Inc., as its wholly-owned subsidiary.

On October 1, 2013, the Company formed a wholly-owned subsidiary, AllStar Health Brands, Inc., under the laws of the Province of Ontario, Canada.

C. the issuer's primary and secondary SIC Codes;

Primary SIC Code: 2836-1; Secondary SIC Code: 2834-1.

D. the issuer's fiscal year end date;

The Company's fiscal year end date is December 31.

E. principal products or services; and their markets;

The Company's principal products are pharmaceutical and natural health products. The Company currently has the rights to several DINs and formulations (Drug Identification Numbers) registered with Health Canada, and intends to periodically launch some or all of these products onto the Canadian market.

7) Issuer's Facilities

The Company currently has its offices in Toronto, Canada and Mexico City, Mexico. The Company uses both office spaces free of charge based on its arrangement with certain affiliated parties.

8) Officers, Directors, and Control Persons

A. Names of Officers, Directors and Control Persons

Name	Affiliation
Peter Daniel Bagi, MD	President, Director and Control Person (holding 5,000,000 shares or 10.6% of the Company's common stock)

Peter Daniel Bagi, MD, is an experienced pharmaceutical and biotech professional with +23 yrs. in the industry. Dr. Bagi is currently responsible for all areas of operations, while the Company secures additional financing, and currently owns 5,000,000 shares of restricted Common Stock with a two-year holding period. Dr. Bagi is also currently the sole director.

Dr. Bagi graduated from the Faculty of Medicine at the University of Monterrey, in 1990, and subsequently successfully passed the US foreign-medical graduate licensing exam in 1991. Dr. Bagi began in the Biotech industry in 1990 as the Associate Medical Director of a Canadian Biotech company, which has since undergone several name changes over the years, but is currently known as Lorus Therapeutics, and as such Dr. Bagi's responsibilities included overseeing the cancer clinical trial program in Canada, US and Mexico. During his five-yr. tenure at Lorus, Dr. Bagi was asked to participate in presentations at medical and scientific conferences to highlight the progress of its lead cancer-fighting compound: Virulizin. In addition Dr. Bagi was able to spearhead the approval of Virulizin in Mexico as a second-line treatment for metastatic pancreatic cancer. Since Lorus was a small Biotech company, Dr. Bagi was also asked to present the scientific progress of Lorus during fund-raising efforts Lorus periodically undertook.

After leaving Lorus, Dr. Bagi freelanced as a biotech analyst at several of Toronto's brokerage firms writing reports on pharmaceutical and biotech companies the brokerages were considering investments in.

Dr. Bagi also was able to recruit World-Class Advisory Boards for several of the small biotech companies he has consulted with over the years, such as Alpha Rx.

Dr. Bagi also worked as a Business Development consultant for various small biotech companies, and was instrumental in out-licensing several medicinal products between Canadian and foreign pharmaceutical companies. One of Dr. Bagi's successful out-licensing medicines, Indaflex, a topical pain-relief product currently enjoys in excess of US\$2.5 MM in annual sales in Mexico.

Dr. Bagi's experience across several aspects of the operations of a small pharmaceutical company will serve the Company well in the execution of its Business Plan.

Consultant

Neil Mellor has over 25 years of pharmaceutical experience both in Canada and in Europe. Neil has worked for large companies such as Merck, GSK and Pfizer and has also worked with medium-sized pharma companies such as Solvay Pharma. NATURE OF BUSINESS

The consolidated financial statements include the financial results of Axxess Pharma Inc. and its wholly owned subsidiary Allstar Health Brands Inc.

Axxess Pharma Inc. was incorporated under the Laws of the Province of Ontario. The Company is engaged in the acquisitions of Drug Identification Numbers and the eventual sale of the related products. Allstar Health Brands Inc. was incorporated on October 1, 2013 under the Laws of the Province of Ontario. The Company is engaged in the acquisitions of Drug Identification Numbers and the eventual sale of the related products.

1. BASIS OF FINANCIAL STATEMENT PRESENTATION

The financial statements include the accounts of the Company. These financial statements have been prepared in accordance with U.S. generally accepted accounting principles.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(b) Intangible assets

Licensing, as it relates to Drug Identification Numbers, is accounted for as an indefinite lived intangible asset until the product is abandoned, at which point the intangible asset will be written off.

Intangible assets with indefinite lives are assessed annually for impairment. The Company completed the annual impairment test for 2013 and no impairment was determined. Future impairment tests will be performed annually or sooner if a triggering event occurs.

(c) Inventory and work in progress:

Inventory and work in progress is valued at the lower of cost and net realizable value, with cost determined on a specific item basis.
