The above is a complete list of all of the Company's issuances of securities since its change of control in April 2012. The Company does not have a complete record of stock issuances before this time. In April 2012, after the change of control, the Company filed a Certificate of Amendment amending its Certificate of Incorporation with the Delaware Secretary of State effecting a 750-for-1 reverse split of the Company's Common Stock. As a result of this reverse split, the holders of the Company's Common Stock before the change of control occurred in April 2012 have a relatively small interest in the Company at this time.

Loan Agreements:

The Company entered into a loan agreement with Beaufort Capital Partners LLC, on June 9, 2014, for proceeds of \$210,832, bearing interest at 12% per Annum.

On February 5, 2015, the Company entered into a convertible debenture with RDW Capital LLC for proceeds of \$100,000

On February 6, 2015 the Company entered into a loan agreement with River North Equity LLC for proceeds of \$75,000.

5) Financial Statements

See the Financial Statements for the year ended December 31, 2014 attached herewith this annual report as Exhibit A.

6) Describe the Issuer's Business, Products and Services

A. a description of the issuer's business operations;

Axxess, a Nevada Corporation, has in-licensed rights to manufacture and distribute several Health Canada-approved pharmaceutical and natural health products and various products under the TapouT brand, including Pain relief, Nutritional Supplements and Vitamins & Minerals.

Our Own Products

The Company intends to manufacture and distribute in Canada, the USA and other markets internationally both in retail and online the products listed below:

Soropon Medicated Shampoo

Soropon Medicated Shampoo is a treatment for both infants and adults for fungal infections of the scalp such as seborrheic dermatitis and cradle cap in infants.

There are several shampoos meant to treat similar conditions such as, Nizoral, Dan-Gard, SebCur and Polytar, all being offered in the \$20-24.00 price range. The Company plans to employ an aggressive pricing strategy to compete effectively with the other competitors in this market segment, while marketing to all the target age groups.

The Company expects to re-launch Soropon Medicated Shampoo into the Canadian market approximately six months upon completion of further financing. We cannot guarantee that the financing will be available or available at favourable terms to the Company.

TapouT- branded Products: The Company acquired in 2013, the world-wide exclusive license from ABG-Authentic Brands for TapouT Vitamins & Minerals, Pain Relief and Certain Supplements, Protein Powder, Ready-to-Drink Protein meal replacement products in return for a royalty rate of 5%.

The TapouT-branded products include TapouT Spray Pain Relief, TapouT Pain Relief Towelettes, TapouT Hot & Cold Reusable Packs, TapouT Instant Cold Packs, TapouT Extreme Muscle Growth Supplement, TapouT Muscle Recovery Supplement, TapouT Turbo Blend Protein Powder and TapouT Omega-3 Fish Oil.

The TapouT-brand pain relief products use a patented formulation with no chemical binders, and all-natural ingredients. The Company believes this will confer a competitive advantage in the market.

The new products:

TapouT Extreme Muscle Growth and TapouT Muscle Recovery are manufactured in the US through Private Label Nutraceuticals LLC and, we offer a premium formula in keeping with the quality and natural ingredients philosophy of TapouT.

TapouT Turbo Blend Protein Powder is manufactured in the US at Private Label Nutraceuticals LLC, and offers a unique formula using organic components, added L-Carnitine, iron and fish oil, with the added benefit of being gluten-free.

TapouT Omega-3 Fish Oil: is a high-potency fish oil with a special formulation allowing it to be taken without meals.

Distribution

The Company plans to distribute its products in Canada, the US and certain international markets. The Company is currently negotiating licensing and/or distribution agreements with foreign distributors for the Sales and Marketing of some of Axxess's products in their respective territories. One example of a foreign distribution agreement is with Hard Core Beverages (HCB) of Australia for the TapouT line of products. The TapouT brand is even more recognizable in the Asia Pacific region and the company believes sales will grow quickly in the region. HCB has the rights for Australia, New Zealand, Indonesia and South Korea.

Other Products

The Company plans to add other products in the TapouT line such as, a Ready-to-Drink protein meal replacement, protein bars, and an all-natural testosterone boost in order to meet the perceived high-demand from big-box retailers in the US and abroad, and expects to launch these products in the first half of 2015.

Manufacturing

Axxess does not, and does not intend to manufacture any products itself, rather, it uses and will continue to use FDA and/or Health Canada approved contract pharmaceutical manufacturers to manufacture its product line. The Company intends to have manufactured its own products in either Canada or the USA in cGMP facilities owned by contract manufacturers, for smooth access into more non-regulated markets overseas. Although the Company competes with other pharmaceutical companies who offer somewhat similar products, the Company believes its products offer some unique components which render its products more attractive to consumers, such as lower side-effect profile or price advantage as well as the added lustre of a recognizable brand.

The company has wholesale paid in-inventory valued at approximately \$200,000.

Patents

On September 30, 2013, the Company acquired patents on the methods used to formulate its topical pain relief formula without the use of chemical binders, from Revive Bioscience Inc. In addition, the Company and relies on other proprietary manufacturing know-how for its certain products.

B. Date and State (or Jurisdiction) of Incorporation:

The Company was incorporated in the state of Delaware on April 7, 1997 as CGI Communications Services, Inc. On July 26, 2008, the Company amended its certificate of incorporation to change its name to Axxess Pharma, Inc. On December 6, 2012, the Company reincorporated in Nevada by merging into a newly formed Nevada entity with the same name. The Company now operates as Axxess Pharma, Inc., with Axxess Pharma Canada, Inc., as its wholly-owned subsidiary.

On October 1, 2013, the Company formed a wholly-owned subsidiary, AllStar Health Brands, Inc., under the laws of the Province of Ontario, Canada.

C. the issuer's primary and secondary SIC Codes;

Primary SIC Code: 2836-1; Secondary SIC Code: 2834-1.

D. the issuer's fiscal year end date;

The Company's fiscal year end date is December 31.

E. principal products or services; and their markets;

The Company's principal products are pharmaceutical and natural health products. The Company currently has the rights to several DINs and formulations (Drug Identification Numbers) registered with Health Canada, and intends to periodically launch some or all of these products onto the Canadian market.

7) Issuer's Facilities

The Company currently has its offices in Toronto, Canada; Aventura, Florida and Mexico City, Mexico. The Company leases the Toronto and Aventura offices certain affiliated parties.

8) Officers, Directors, and Control Persons

A. Names of Officers, Directors and Control Persons

Name	Affiliation
Peter Daniel Bagi, MD	President, Director and Control Person (holding 6,000,000 shares or 8.86 % of the Company's common stock)
Blue Ivory International Holdings LTD	12,500,000 shares representing 18.46 % of the company's common stock

Peter Daniel Bagi, MD, is an experienced pharmaceutical and biotech professional with +23 yrs. in the industry. Dr. Bagi is currently responsible for all areas of operations, while the Company secures additional financing, and currently owns 6,000,000 shares of restricted Common Stock with a two-year holding period. Dr. Bagi is also currently the sole director.

Dr. Bagi graduated from the Faculty of Medicine at the University of Monterrey, in 1990, and subsequently successfully passed the US foreign-medical graduate licensing exam in 1991. Dr. Bagi began in the Biotech industry in 1990 as the Associate Medical Director of a Canadian Biotech company, which has since undergone several name changes over the years, but is currently known as Lorus Therapeutics, and as such Dr. Bagi's responsibilities included overseeing the cancer clinical trial program in Canada, US and Mexico. During his five-yr. tenure at Lorus, Dr. Bagi was asked to participate in presentations at medical and scientific conferences to highlight the progress of its lead cancer-fighting compound: Virulizin. In addition Dr. Bagi was able to spearhead the approval of Virulizin in Mexico as a second-line treatment for metastatic pancreatic cancer. Since Lorus was a small Biotech company, Dr. Bagi was also asked to present the scientific progress of Lorus during fund-raising efforts Lorus periodically undertook.

After leaving Lorus, Dr. Bagi freelanced as a biotech analyst at several of Toronto's brokerage firms writing reports on pharmaceutical and biotech companies the brokerages were considering investments in.

Dr. Bagi also was able to recruit World-Class Advisory Boards for several of the small biotech companies he has consulted with over the years, such as Alpha Rx.

Dr. Bagi also worked as a Business Development consultant for various small biotech companies, and was instrumental in out-licensing several medicinal products between Canadian and foreign pharmaceutical companies. One of Dr. Bagi's successful out-licensing medicines, Indaflex, a topical pain-relief product currently enjoys in excess of US\$2.5 MM in annual sales in Mexico.

Dr. Bagi's experience across several aspects of the operations of a small pharmaceutical company will serve the Company well in the execution of its Business Plan.

Notes to Consolidated Financial Statements
December 31, 2014 and 2013
(Unaudited)

NOTE 1—THE COMPANY AND BASIS OF PRESENTATION

Nature of operations

Axxess Pharma, Inc. was incorporated in the state of Delaware on April 7, 1997 as CGI Communications Services Inc. On July 26, 2008, the Company amended its certificate of incorporation to change its name to Axxess Pharma, Inc. On December 6, 2012 the Company reincorporated in Nevada by merging into a newly formed Nevada entity with the name Axxess Pharma, Inc. The Company now operates as Axxess Pharma, Inc. with Axxess Pharma Canada, Inc. and Allstar Health Brands Inc. as its wholly owned subsidiaries.

Axxess Pharma Canada, Inc. was incorporated under the Laws of the Province of Ontario. The Company is engaged in the acquisition of Drug Identification Numbers and the eventual sale of the related products. All Star Health Brands Inc. was incorporated on October 1, 2013 under the Laws of the Province of Ontario. The Company is engaged in the acquisition of Drug Identification Numbers and the eventual sale of the related products

The consolidated financial statements included the results of Axxess Pharma Inc. Axxess Pharma Canada and its wholly owned subsidiary Allstar Health Brands Inc. All intercompany accounts have been eliminated during consolidation.

NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

The Company's most significant areas of estimation and assumption are:

- determination of the appropriate amount and timing of markdowns to clear unproductive or slow-moving retail inventory and overall inventory obsolescence
- estimation of future cash flows used to assess the recoverability of long-lived assets
- estimation of estimated fair value of the equity instruments

Cash and Cash Equivalents

All short-term investments with original maturities of three months or less at date of purchase are considered cash equivalents.

Concentrations of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist of cash and accounts receivable. The Company maintains their cash in bank deposit accounts at high credit quality financial institutions. The balances, at times, may exceed federally insured limits. The Company also maintains a certain amount of cash on hand at the retail store locations. The Company has not experienced any significant losses with respect to its cash. At both December 31, 2014 and 2013, the Company did not exceed the insured limit of a depository institution.

AXXESS PHARMA, INC. & SUBSIDIARIES
Notes to Consolidated Financial Statements
December 31, 2014 and 2013
(Unaudited)

Accounts receivable

The Company considers the entire accounts receivable to be fully collectible. The accounts receivable consist of trade receivable to wholesale customer. Management believes all receivables are fully collectible and therefore no allowance for bad debt has been recorded as of December 31, 2014 and 2013.

Inventory

Inventory consists of finished product acquired for resale and is valued at the lower-of-cost-or-market with cost determined on a specific item basis.

Fair value of financial instruments

The carrying amounts of certain of the Company's financial instruments, including cash, accounts receivable, accounts payable and accrued liabilities approximate fair value due to their relatively short maturities.

Foreign Currency Transactions

The Company's functional currency is the Canadian dollar and the reporting currency is the U.S. dollar. Assets and liabilities are translated from the functional to the reporting currency at the exchange rate in effect at the balance sheet date and equity at the historical exchange rates. Revenue and expenses are translated at rates in effect at the time of the transactions. Resulting translation gains and losses are accumulated in a separate component of stockholders' equity - other comprehensive income (loss). Realized foreign currency transaction gains and losses are credited or charged directly to operations.

Intangible Assets

Intangible Assets consist primarily of licensing as it relates to Drug Identification Numbers (DINs), which is calculated on a straight-line basis over the estimated useful lives, generally estimated, to be ten years. The carrying value of the DINs is assessed for impairment annually during the fourth quarter of each year, or more frequently if impairment indicators exist. Other intangible assets consist of websites, trademarks, domain names etc. and are amortized over estimated useful lives

Impairment of Long-Lived Assets

The Company reviews long-lived assets, including property and equipment, for impairment whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable based on undiscounted cash flows. If long-lived assets are impaired, an impairment loss is recognized and is measured as the amount by which the carrying value exceeds the estimated fair value of the assets. The estimation of future undiscounted cash flows from operating activities requires significant estimates of factors that include future sales growth and gross margin performance. Management believes they have appropriately determined future cash flows and operating performance; however, should actual results differ from those expected, additional impairment may be required.

AXXESS PHARMA, INC. & SUBSIDIARIES
Notes to Consolidated Financial Statements

(Unaudited)

Cost of sales

Cost of sales of approximately \$80,748 and \$744 for the years ended December 31, 2014 and 2013, respectively, consist primarily of merchandise costs of sales.

Revenue recognition

The Company derives revenues from sale of merchandise and upon the following: (1) there is persuasive evidence that an arrangement exists; (2) delivery has occurred or services have been rendered, (3) the seller's price to the buyer is fixed or determinable, and (4) collectability is reasonably assured.

Advertising / Marketing

Advertising costs are charged to expense when incurred. The Company's advertising method is primarily print, web based and word of mouth. Advertising / marketing costs were approximately \$147,780 and \$33,960 for the years ended December 31, 2014 and 2013, respectively.

Stock-based compensation

The Company records stock based compensation in accordance with the guidance in ASC Topic 505 and 718 which requires the Company to recognize expenses related to the fair value of its employee stock option awards. This eliminates accounting for share-based compensation transactions using the intrinsic value and requires instead that such transactions be accounted for using a fair-value-based method. The Company recognizes the cost of all share-based awards on a graded vesting basis over the vesting period of the award.

The Company accounts for equity instruments issued in exchange for the receipt of goods or services from other than employees in accordance with FASB ASC 718-10 and the conclusions reached by the FASB ASC 505-50. Costs are measured at the estimated fair market value of the consideration received or the estimated fair value of the equity instruments issued, whichever is more reliably measurable. The value of equity instruments issued for consideration other than employee services is determined on the earliest of a performance commitment or completion of performance by the provider of goods or services as defined by FASB ASC 505-50.

Comprehensive Income

ASC Topic 220, "Comprehensive Income", establishes standards for reporting and display of comprehensive income and its components in a full set of general-purpose financial statements. Comprehensive Income consists of foreign currency translation.

NOTE 3 – GOING CONCERN

The accompanying financial statements have been prepared in conformity with generally accepted accounting principles, which contemplate continuation of the Company as a going concern. The Company currently has limited working capital, and has not completed its efforts to establish a stabilized source of revenues sufficient to cover operating costs over an extended period of time.

Management anticipates that the Company will be dependent, for the near future, on additional investment capital to fund operating expenses. The Company intends to position itself so that it may be able to raise additional funds through the capital markets. In light of management's efforts, there are no assurances that the Company will be successful in this or any of its endeavors or become financially viable and continue as a going concern.

NOTE 4 – INTANGIBLE ASSETS

DINs License Agreement

The Company licensed certain patents from Blue Ivory, Inc. in connection with a 2010 agreement, which is being capitalized and amortized by straight-line methods over estimated useful lives of ten years. The Company agreed to a \$5,000,000 license fee payable in quarterly installments of \$125,000 payable over a ten year period. Based upon a review of the assets during the year ended December 31, 2013, the Company determined that there was a material impairment of DIN's license agreement and recorded an impairment of \$4,875,000. The Company intends to pursue opportunities with the license agreement upon acceptable funding to pursue the business model.

NOTE 10– LOSS PER SHARE

The following table presents the computations of basic and dilutive loss per share:

	2014	2013
Net Income (Loss)	\$ (4,125,151)	\$ (13,949,397)
Net income (loss) per share:		
Net income (loss) per share – basic and diluted	\$ (0.07)	\$ (0.31)
Weighted average common shares outstanding – basic and diluted	56,458,438	44,790,822

For the year ended December 31, 2014 and 2013 common stock equivalents totaling 21,375,000 and 20,000,000, respectively, related to warrants, convertible debt and preferred stock were excluded from the calculation of the diluted net loss per share as their effect would have been antidilutive.

NOTE 11— INCOME TAXES

As of December 31, 2014, the Company had net operating loss carry forwards of approximately \$29,099,000 that may be available to reduce future years' taxable income in varying amounts through 2033. Future tax benefits which may arise as a result of these losses have not been recognized in these financial statements, as their realization is determined not likely to occur and accordingly, the Company has recorded a valuation allowance for the deferred tax asset relating to these tax loss carry-forwards.

The provision for Federal income tax consists of the following:

	December 31, 2014	December 31, 2013
Federal income tax benefit attributable to:		
Current operations	\$ 4,125,000	13,903,000
Less: valuation allowance	(4,125,000)	(13,903,000)
Net provision for Federal income taxes	\$ -	-

The cumulative tax effect at the expected rate of 34% of significant items comprising our net deferred tax amount is as follows:

	December 31, 2014	December 31, 2013
Deferred tax asset attributable to:		
Net operating loss carryover	\$ 1,403,000	4,726,000,
Less: valuation allowance	(1,403,000)	(4,726,000)
Net deferred tax asset	\$ -	-

Due to the change in ownership provisions of the Tax Reform Act of 1986, net operating loss carry forwards for Federal income tax reporting purposes are subject to annual limitations. Should a change in ownership occur net operating loss carry forwards may be limited as to use in future years.
