6) Describe the Issuer's Business, Products and Services

Describe the issuer's business so a potential investor can clearly understand the company. In answering this item, please include the following:

A. a description of the issuer's business operations:

HEMP, INC.'S PRIMARY FOCUS IS ON INDUSTRIAL HEMP AND MYRIAD OF CLEAN, GREEN SUSTAINABLE PRODUCTS THAT INDUSTRIAL HEMP OFFERS TO THE WORLD.

Now LEGALIZED, North Carolina will be home to the only industrial hemp commercial decortication facility in the United States. On October 31, 2015 Governor Pat McCrory passed <u>Senate Bill 313</u> (by not vetoing it) as "an act to recognize the importance and legitimacy of Industrial Hemp research, to provide for compliance with portions of the Federal Agricultural Act of 2014, and to promote increased agricultural employment."

Farmers in North Carolina now have the option to cultivate hemp crops with easy access to Hemp, Inc.'s (OTC PINK: HEMP) multipurpose industrial hemp commercial processing facility in Spring Hope, NC.

Hemp, Inc.'s wholly-owned subsidiary, Industrial Hemp Manufacturing, LLC, in North Carolina hosted the NC Industrial Hemp Association informational meeting, where 60 to 80 local farmers met at the decortication plant on Wednesday, November 18, 2015 to discuss what the rules and regulations will be for the North Carolina Industrial Hemp Commission. The farmers agreed to help support the Commission in raising \$200,000 after which the Commission will be able to establish rules and regulations for the pilot program.

The North Carolina General Assembly "finds and declares that it is in the best interest of the citizens of North Carolina to promote and encourage the development of an industrial hemp industry in the State in order to expand employment, promote economic activity, and provide opportunities to small farmers for an environmentally sustainable and profitable use of crop lands that might otherwise be lost to agricultural production. The purposes of this Article are to establish an agricultural pilot program for the cultivation of industrial hemp in the State, to provide for reporting on the program by growers and processors for agricultural or other research, and to pursue any federal permits or waivers necessary to allow industrial hemp to be grown in the State." Bruce Perlowin's, CEO of Hemp, Inc. (OTC PINK: HEMP), decision to keep the decortication plant in North Carolina paid off and the company is now more easily able to uphold its commitment to the American farmers in North Carolina. "Hemp, Inc. has made a commitment to North Carolina farmers to pay 10% above the market price for their hemp crops, for the first year, to help boost the industry and give our farmers a helping hand. So if there are any farmers interested in growing hemp in North Carolina, contact David Schmitt of Hemp, Inc.'s subsidiary, Industrial Hemp Manufacturing, LLC by visiting http://ihempman.com/contact.html.

"Currently, Hemp, Inc. is very interested in farmers wanting to process certified organic hemp or those farmers who want to become certified. <u>David Schmitt</u> can give them that information to begin that process," said Bruce Perlowin, CEO of Hemp, Inc.

Hemp, Inc.'s (OTC PINK: HEMP) multipurpose industrial hemp processing facility in Spring Hope, North Carolina will process hemp to sell to textile manufacturers and other users. The multimillion-dollar plant is nearing the start of production. In another article, Industrial Hemp Poised to Become NC's Newest Legal Crop, by Colin Campbell for The News and Observer, David Schmitt, COO of Hemp, Inc.'s subsidiary, Industrial Hemp Manufacturing, LLC explains in a video, the manufacturing process of the decortication facility and what they expect to accomplish now that industrial hemp is legal in North Carolina. (Read full article here.)

Three weeks ago, the first of many portable decortication plants also arrived at Hemp, Inc.'s facility. This will allow Hemp, Inc. to help farmers decorticate their crops in states too far away to utilize our processing facilities, such as Colorado, Kentucky, Oregon, Virginia, Pennsylvania and other states.

Hemp, Inc. executives also announced, in a previous press release, that they will build a testing lab within their facility. According to David Schmitt, COO of Hemp, Inc. Industrial Hemp Manufacturing, LLC, the lab will be for new product development testing and testing raw hemp materials, fibers and hemp-based products. Not only will Hemp, Inc.'s decortication facility be the only commercial facility in the United States located in North Carolina, it will also be home to the only commercial testing lab for industrial hemp that we are aware of.

Between the multipurpose industrial hemp processing facility, the portable decortication machines, and the Hemp laboratory (currently under construction) Hemp, Inc. is poised to be the avant-garde of the industrial hemp industry.
