MANAGEMENT INFORMATION CIRCULAR

(Dated, and containing information as at August 28, 2013 unless indicated otherwise)

PERSONS MAKING THE SOLICITATION

This Information Circular is furnished in connection with the solicitation of proxies by the management of **Wealth Minerals Ltd.** (the “Company”) for use at the 2013 Annual General Meeting of shareholders of the Company (and any adjournment thereof) to be held at 10:00 a.m. (Vancouver time) on Wednesday, October 2, 2013 at the place and for the purposes set forth in the accompanying Notice of Meeting (the “Meeting”). While it is expected that the solicitation will be primarily by mail, proxies may be solicited personally or by telephone by the regular employees of the Company at nominal cost. All costs of solicitation by management will be borne by the Company.

The contents and the sending of this Information Circular have been approved by the directors of the Company.

PROXY INSTRUCTIONS

The persons named in the accompanying proxy are current directors and/or officers of the Company. If a shareholder wishes to appoint some other person (who need not be a shareholder) to represent that shareholder at the Meeting the shareholder may do so, either by striking out the printed names and inserting the desired person’s name in the blank space provided in the proxy or by completing another proper proxy and in either case delivering the completed and executed proxy to the Company’s transfer agent, Computershare Investor Services Inc., Proxy Dept., 100 University Avenue, 9th Floor, Toronto, Ontario, CANADA M5J 2Y1, not less than two (2) full business days before the day fixed for the Meeting or, with respect to any matter occurring after the reconvening of any adjournment of the Meeting, not less than two (2) business days prior to the day of recommencement of such adjourned Meeting. Proxies delivered after such times will not be accepted.

To be valid, the proxy must be dated and be signed by the shareholder or by a duly appointed attorney for such shareholder, or, if the shareholder is a corporation, it must either be under its common seal or signed by a duly authorized officer. If a proxy is signed by a person other than the registered shareholder, or by an officer of a registered corporate shareholder, the Chairman of the Meeting may require evidence of the authority of such person to sign before accepting such proxy.

THE SHARES REPRESENTED BY PROXY WILL BE VOTED OR WITHHELD FROM VOTING BY THE PROXY HOLDER IN ACCORDANCE WITH THE INSTRUCTIONS OF THE PERSON APPOINTING THE PROXYHOLDER ON ANY BALLOT THAT MAY BE CALLED FOR AND, IF A CHOICE HAS BEEN SPECIFIED WITH RESPECT TO ANY MATTER TO BE ACTED UPON, THE SHARES WILL BE VOTED ACCORDINGLY.

ON A POLL, IF A CHOICE WITH RESPECT TO SUCH MATTERS IS NOT SPECIFIED OR IF BOTH CHOICES HAVE BEEN SPECIFIED, THE PERSON APPOINTED PROXYHOLDER WILL VOTE THE SECURITIES REPRESENTED BY THE PROXY AS RECOMMENDED BY MANAGEMENT (WHICH, IN THE CASE OF THE MEETING, WILL BE IN FAVOUR OF EACH MATTER IDENTIFIED IN THE PROXY AND FOR THE NOMINEES OF MANAGEMENT FOR DIRECTORS AND AUDITORS).

The enclosed proxy, when properly completed and delivered and not revoked, confers discretionary authority upon the person(s) appointed proxyholder(s) thereunder to vote with respect to any amendments or variations of matters identified in the Notice of Meeting and which may properly come before the Meeting. At the time of the printing of this Information Circular, management knows of no such amendment, variation or other matter which may be presented to the Meeting.

REVOCABILITY OF PROXIES

A shareholder who has given a proxy may revoke it by an instrument in writing executed by the shareholder or by his attorney authorized in writing or, where the shareholder is a corporation, by a duly authorized officer or attorney of the corporation, and delivered to the registered office of the Company, Suite 2300, 550 Burrard Street, Vancouver, British Columbia, V6C 2B5 at any time up to and including the last business day preceding the day of the Meeting, or if adjourned, any reconvening thereof, or in any other manner provided by law. A revocation of a proxy does not affect any matter on which a vote has been taken prior to the revocation.

ADVICE TO BENEFICIAL SHAREHOLDERS

The information set out in this section is important to many shareholders as a substantial number of shareholders do not hold their shares in their own name.

Only registered shareholders or duly appointed proxyholders for registered shareholders are permitted to vote at the Meeting. Most of the shareholders of the Company are “non-registered” shareholders because the shares they own are not registered in their names but are instead registered in the name of the brokerage firm, bank or trust company through which they purchased the shares or a nominee of such bank, brokerage firm or trust company.

More particularly, a person is not a registered shareholder in respect of shares of the Company which are held on behalf of that person (the “Non-Registered Holder”) but which are registered either (a) in the name of an intermediary (the “Intermediary”) that the Non-Registered Holder deals with in respect of the shares (Intermediaries include, among others, banks, trust companies, securities dealers or brokers and trustees or administrators of self-administered RRSP’s, RRIF’s, RESP’s and similar plans), or (b) in the name of a clearing agency (such as The Canadian Depository for Securities Limited (“CDS”)) of which the Intermediary is a participant. As noted below, in accordance with the requirements of National Instrument 54-101 of the Canadian Securities Administrators, the Company has distributed copies of the Notice of Meeting, this Information Circular and the form of proxy (collectively referred to as the “Meeting Materials”) to the clearing agencies and Intermediaries for onward distribution to certain Non-Registered Holders.

Intermediaries are required to forward the Meeting Materials to Non-Registered Holders unless a Non-Registered Holder has waived the right to receive them. Very often, Intermediaries will use service companies to forward the Meeting Materials to Non-Registered Holders. Generally, if you are a Non-Registered Holder and you have not waived the right to receive the Meeting Materials you will either:

- (a) be given a form of **proxy which has already been signed by the Intermediary** (typically by a facsimile, stamped signature) which is restricted to the number of shares beneficially owned by you, but which is otherwise not complete. Because the Intermediary has already signed the proxy, this proxy is not required to be signed by you when submitting it. In this case, if you wish to submit a proxy you should otherwise properly complete the executed proxy provided and deposit it with the **Company’s Registrar and Transfer Agent, Computershare Investor Services Inc.**, as provided above; or
- (b) more typically, a Non-Registered Holder will be given a “Voting Instruction Form” which is not signed by the Intermediary, and which, when properly completed and signed by the Non-Registered Holder and **returned to the Intermediary or its service company**, will constitute voting instructions (often called a “proxy”, “proxy authorization form” or “voting instruction form”) which the Intermediary must follow. Typically, the voting instruction form will consist of a one page pre-printed form. Sometimes, instead of the one page printed form, the voting instruction form will consist of a regular printed proxy accompanied by a page of instructions that contains a removable label containing a bar-code and other information. In order for the proxy to validly constitute a voting instruction form, the Non-Registered Shareholder must remove the label from the instructions and affix it to the proxy, properly complete and sign the proxy **and return it to the Intermediary or its service company (not the Company or Computershare**

Investor Services Inc.) in accordance with the instructions of the Intermediary or its service company.

In either case, the purpose of this procedure is to permit Non-Registered Holders to direct the voting of the shares that they beneficially own. If you are a Non-Registered Holder and you wish to vote at the Meeting in person as proxyholder for the shares owned by you, you should strike out the names of the management designated proxyholders named in the **proxy authorization form or voting instruction form and insert your name in the blank space provided. In either case, you should carefully follow the instructions of your Intermediary, including when and where the proxy, proxy authorization or voting instruction form is to be delivered.**

The materials with respect to the Meeting are being sent to both registered shareholders and Non-Registered Holders who have not objected to the intermediary through which their common shares are held disclosing ownership information about themselves to the Company (“NOBO’s”). If you are a NOBO, and the Company or its agent has sent these materials to you, your name and address and information about your holdings of securities have been obtained in accordance with applicable securities regulatory requirements from the intermediary on your behalf.

If you are a Non-Registered Holder who has objected to the intermediary through which your common shares are held disclosing ownership information about you to the Company (an “OBO”), you should be aware that the Company does not intend to pay for intermediaries to forward the materials with respect to the Meeting, including proxies or voting information forms, to OBO’s and therefore an OBO will not receive the materials with respect to the Meeting unless that OBO’s intermediary assumes the cost of delivery.

All references to shareholders in this Information Circular and the accompanying form of Proxy and Notice of Meeting are to registered shareholders unless specifically stated otherwise.

INTEREST OF CERTAIN PERSONS OR COMPANIES IN MATTERS TO BE ACTED UPON

Other than as disclosed elsewhere in this Information Circular, none of the current directors or executive officers, no proposed nominee for election as a director, none of the persons who have been directors or executive officers since the commencement of the last completed financial year and no associate or affiliate of any of the foregoing persons has any material interest, direct or indirect, by way of beneficial ownership of securities or otherwise, in any matter to be acted upon at the Meeting, with the exception of the re-approval of the 2004 incentive stock option plan.

VOTING SHARES AND PRINCIPAL HOLDERS THEREOF

The authorized capital of the Company consists of an unlimited number of common shares without par value (“common shares”). As at August 28, 2013, 61,753,608 common shares were issued and outstanding.

Only shareholders of record at the close of business on August 28, 2013 (the “Record Date”), who either personally attend the Meeting or who have completed and delivered a form of proxy in the manner and subject to the provisions described above will be entitled to vote or to have their shares voted at the Meeting.

On a show of hands, every individual who is present as a shareholder or as a duly appointed representative of a registered corporate shareholder will have one vote, and on a poll every shareholder present in person or represented by a valid proxy, and every person who is present as a duly appointed representative of a corporate shareholder, will have one vote for each common share registered in the name of the shareholder on the list of shareholders, which is available for inspection during normal business hours at Computershare Investor Services Inc. and will be available at the Meeting. Shareholders represented by proxyholders are not entitled to vote on a show of hands.

To the knowledge of the directors and senior officers of the Company, there are no persons or companies who beneficially own, directly or indirectly, or exercise control or direction over, common shares carrying more than 10% of the voting rights attached to all outstanding common shares of the Company.

FINANCIAL STATEMENTS AND MD&A

The audited financial statements of the Company for the fiscal year ended November 30, 2012, and the accompanying management discussion and analysis, were filed on SEDAR on April 2, 2013 and have been mailed to all registered and beneficial shareholders who had requested them by returning the “Annual/Interim Financial Statement and MD&A Request Form” mailed by the Company as part of its 2012 annual general meeting materials. **If you wish to receive either or both of the annual audited financial statements and interim financial statements and accompanying MD&A for the 2013 fiscal year (which commenced on December 1, 2012), you must complete and return the “Annual/Interim Financial Statement and MD&A Request Form” accompanying this Information Circular.**

Election of Directors

There are currently four directors. Compensation Discussion and Analysis

Compensation Committee

The Board has established a Compensation Committee (“CC”), and has adopted a written charter for the CC, effective June 20, 2007. There is no written position description for the Chair of the CC. However, as a general statement, the Chair is responsible for setting the tone for the work of the CC, ensuring that members have the information needed to do their jobs, overseeing the logistics of the CC’s operations, reporting to the Board on the committee’s decisions and recommendations and setting the agenda for the meetings of the CC.

The CC is responsible for assisting the Board in monitoring, reviewing and approving compensation policies and practises of the Company and its subsidiaries and administering the Company’s 2004 Incentive Stock Option Plan (the “Plan”). With regard to the CEO, the CC is responsible for reviewing and approving corporate goals and objectives relevant to the CEO’s compensation, evaluating the CEO’s performance in light of those goals and objectives and making recommendations to the Board with respect to the CEO’s compensation level based on this evaluation. In consultation with the CEO, the CC makes recommendations to the Board on the framework of executive remuneration and its cost and on specific remuneration packages for each of the directors and officers other than the CEO, including recommendations regarding awards under equity compensation plans. The CC also reviews executive compensation disclosure before the Company publicly discloses the information. The CC’s decisions are typically reflected in consent resolutions.

The CC has the authority to engage and compensate, at the expense of the Company, any outside advisor that it determines to be necessary to permit it to carry out its duties (including compensation consultants and advisers), but it did not retain any such outside consultants or advisers during the financial year ended November 30, 2012.

General Compensation Strategy

The executive officers of the Company are compensated in a manner consistent with their respective contributions to the overall benefit of the Company, and in line with the criteria set out below.

Executive compensation is based on a combination of factors, including a comparative review of information provided to the CC by compensation consultants, recruitment agencies and auditors (if any) as well as historical precedent. The CC has not felt it necessary to retain any compensation consultants or other compensation advisers in respect of any prior fiscal years. In the case of a mineral exploration company such as the Company, the ability to determine and carry out generative programs based on new geological theories or concepts in previously unexplored areas, the ability to source and secure promising mineral properties, the ability to raise the necessary capital to explore such properties and maintain the Company’s ongoing activities, the ability to focus the Company’s resources and to appropriately allocate such resources to the benefit of the Company as a whole, the ability to ensure compliance by the Company with applicable regulatory requirements and the ability to carry on business in a sustainable manner are considered by the CC to be of primary importance in assessing the performance of its executive officers.

The foregoing criteria are used to assess the appropriate compensation level for the CEO and other executive officers.

Executive Compensation Program

General

The executive compensation program formulated by the CC is designed to encourage, compensate and reward senior management of the Company on the basis of individual and corporate performance, both in the short term and the long term, while at the same time being mindful of the responsibility that the Company has to its shareholders.

At the present time, the Company has only one part-time employee, being the Vice-President & General Counsel. The services of Hendrik Van Alphen, the CEO of the Company, are provided through a contract with a private management company controlled by the CEO. However, the CC determined the compensation to be paid to such management company in the same manner as they would have had the CEO been employed directly by the Company. For individuals directly employed by the Company (or whose services are provided pursuant to a management contract) salaries (or amounts payable to the management company) are set through negotiation when an executive officer joins the Company or a management company is engaged (with direct input from the CC) and are reflected in the employment agreement or management contract executed at that time. The compensation of such individuals is then subsequently reviewed each financial year to determine if adjustments are required. Although the Company believes that an employee benefit program, including medical and dental benefits and basic life insurance, would be an essential part of any compensation scheme and an important consideration in attracting the necessary personnel, the Company is unable to provide such given its current number of employees.

The incentive portion of the compensation package, consisting primarily of the awarding of stock options and cash bonuses, is directly tied to the performance of both the individual and the Company. Share ownership opportunities are provided to align the interests of senior management of the Company with the longer-term interests of the shareholders of the Company. Generally, the CC believes that incentive stock options should not be granted for longer than two years, except in exceptional circumstances. The CC does not view share appreciation rights, restricted stock units, securities purchase programs or long term incentive programs (other than incentive stock options) or pension plans as appropriate components of compensation programs for junior resource companies such as the Company. Accordingly, no such elements are included in the Company's compensation program.

In general, the CC considers that its compensation program should be relatively simple in concept and that its focus should be balanced between reasonable annual compensation (base salaries in line with current industry standards) and longer term compensation tied to performance of the Company as a whole (incentive compensation in the form of stock options and cash bonuses where warranted). The CC has not established a formal set of benchmarks or performance criteria to be met by the Company's NEO's, rather, the members of the CC use their own subjective assessments of the success (or otherwise) of the Company to determine, collectively, whether or not the NEO's are successfully achieving the Company business plan and strategy and whether they have over, or under, performed in that regard. The CC has not established any set or formal formula for determining NEO compensation, either as to the amount thereof or the specific mix of compensation elements.

Base Salaries

The level of the base salary for each employee of the Company, within a specified range, is determined by the level of responsibility and the importance of the position to the Company. The CC, in consultation with the CEO, makes recommendations to the Board regarding the base salaries and bonuses (if any) for senior management and employees of the Company other than the CEO. As previously noted, the Company has only the one part-time employee. The CC is responsible for recommending the salary level of the CEO (or, in the case of the Company, the fee payable to the management company which supplies the services of the CEO) to the Board for approval (which must be by a vote of a majority of the independent directors). During the most recently completed fiscal year, based upon the CC's assessment of the performance of the Company's NEO's in line with the factors noted above, and considering the

financial state of the Company, the CC did not recommend any adjustment to the existing salary for the part-time employee or the fees payable to the management company for the CEO's services.

Bonuses

The CEO presents recommendations to the CC with respect to bonuses (if any) to be awarded to the members of senior management (including himself) and to the other employees of the Company (if any). The CC evaluates each member of senior management and the other employees of the Company in terms of their performance and the performance of the Company (utilizing the overall subjective assessment process described above, as opposed to any specific formula). The CC then makes a determination of the bonuses, if any, to be awarded to each member of senior management (including the CEO) and to the employees of the Company, and recommends such determination to the Board. During the fiscal year ended November 30, 2012, no bonuses were awarded.

2004 Incentive Stock Option Plan

The Plan is administered by the CC, and is intended to advance the interests of the Company through the motivation, attraction and retention of key employees, officers and directors of the Company and subsidiaries of the Company and to secure for the Company and its shareholders the benefits inherent in the ownership of common shares of the Company by key employees, officers, directors and consultants of the Company and subsidiaries of the Company. Grants of options under the Plan are proposed/recommended by the CEO, and reviewed by the CC. The CC can approve, modify or reject any proposed grants, in whole or in part. In general, the allocation of available options among the eligible participants in the Plan is on an *ad hoc* basis, and there is no set formula for allocating available options, nor is there any fixed benchmark or performance criteria to be achieved in order to receive an award of options. The timing of the grants of options is determined by the CC. In general, a higher level of responsibility will attract a larger grant of options. Because the number of options available is limited, in general, the CC aims to have individuals at the same levels of responsibility holding equivalent numbers of options, with additional grants being allocated for individuals who the CC believe are in a position to more directly affect the success of the Company through their efforts. The CC looks at the overall number of options held by an individual (including the exercise price and remaining term of existing options and whether any previously granted options have expired out of the money or were exercised) and takes such information into consideration when reviewing proposed new grants. After considering the CEO's recommendations and the foregoing factors, the resulting proposed option grant (if any) is then submitted to the Board for approval. Please see "Particulars of Matters to be Acted Upon – Annual Re-approval of 2004 Incentive Stock Option Plan" for a summary of the Plan. During the fiscal year ended November 30, 2012, the CC approved all recommendations for the grant of incentive stock options proposed by the CEO (of which an aggregate of 125,000 (11.16%) were granted to NEO's and 250,000 (22.3%) were granted to directors who are not NEO's).

Option Based Awards

Summary Compensation Table

During the financial year ended November 30, 2012, the Company had two NEO's, being Hendrik Van Alphen, President and CEO and David Cross, CFO.

The following table is a summary of the compensation paid to the NEO's during the three (3) most recently completed financial years:

Name and Principal Position	Fiscal Year ⁽¹⁾	Salary (CAD)	Share-based Awards (CAD)	Option based Awards (CAD) ⁽²⁾	Non-equity incentive Plan Compensation		Pension Value	All other compensation (CAD)	Total Compensation (CAD)
					Annual incentive plans	Long-term incentive plans			
Hendrik Van Alphen CEO	2012	nil	nil	9,913	nil	nil	nil	180,000 ⁽³⁾	189,913
	2011	nil	nil	108,201	nil	nil	nil	180,000 ⁽³⁾	288,201
	2010	nil	nil	nil	nil	nil	nil	180,000 ⁽³⁾	180,000
David Cross ⁽⁴⁾ CFO	2012	nil	nil	nil	nil	nil	nil	57,000 ⁽⁵⁾	57,000
	2011	nil	nil	35,625	nil	nil	nil	19,419 ⁽⁵⁾	55,044
	2010	nil	nil	28,103	nil	nil	nil	2,000 ⁽⁵⁾	30,103

(1) Fiscal years ended November 30.

(2) Fair value of incentive stock option grants calculated using the Black-Scholes model based on the following assumptions:

- for the fiscal year ended November 30, 2012:

Options Granted	Risk-Free Interest Rate	Expected Life	Expected Volatility	Expected Dividends
January 10, 2012	0.95%	2 years	93.36%	-

- for the fiscal year ended November 30, 2011:

Options Granted	Risk-Free Interest Rate	Expected Life	Expected Volatility	Expected Dividends
March 25, 2011	1.74%	2 years	98.87%	-
October 25, 2011	0.99%	2 years	109.82%	-

- for the fiscal year ended November 30, 2010:

Options Granted	Risk-Free Interest Rate	Expected Life	Expected Volatility	Expected Dividends
October 18, 2010	1.34%	2 years	120.26%	-

The Company believes that the Black-Scholes model is an appropriate model to use for calculating the fair value of incentive stock options because, while the model was originally developed for valuing publicly traded options as opposed to non-transferrable incentive stock options and requires management to make estimates, which are subjective and may not be representative of actual results (changes in assumptions can materially affect estimates of fair values), this model is used by most companies in the Company's peer group and therefore represents an approach to valuation reasonably consistent with the Company's peer group. It is important to remember that, while incentive stock options can have a significant theoretical value (such as those reported above), until the option is actually exercised and the resulting common shares can be sold at a profit, it has no value that can be realized by the holder. Many option grants expire unexercised and out-of-the-money.

(3) These amounts are paid or accrued by the Company to Bosch Management Inc. ("Bosch"), a company controlled by Hendrik Van Alphen, for the services of Hendrik Van Alphen as the President and CEO of the Company. The Company does not pay Mr. Van Alphen any direct compensation for acting as President and CEO. The Company has been advised that Mr. Van Alphen is not paid a salary by Bosch.

(4) Mr. Cross was appointed CFO on October 15, 2010.

(5) Amounts paid to Cross, Davis & Co., C.A., an accounting firm in which Mr. Cross is a partner.

Narrative Discussion

Except as noted below, the Company has no arrangements, standard or otherwise, pursuant to which directors are compensated by the Company for their services in their capacity as directors, or for committee participation, involvement in special assignments or for services as a consultant or expert during the fiscal year ended November 30, 2012.

Except as noted below, none of the Company's current directors have received any manner of compensation for services provided in their capacity as directors, consultants or experts during the Company's most recently completed financial year (other than through the grant of incentive stock options).

Effective December 1, 2007, the Compensation Committee recommended, and the Board approved, the payment of annual retainer and meeting fees to the independent directors of the Company, in recognition of the fact that service as a director in an active resource exploration company such as the Company requires a significant commitment of time and effort, as well as the assumption of increasing liability. Independent directors (in this case the directors other than Mr. Van Alphen) receive a monthly retainer fee of CAD 2,000 (CAD 24,000 per annum), plus an additional fee of CAD 500 per Board or Board committee meeting attended in person or by conference telephone. There is no additional compensation paid with respect to committee membership. In addition, the Company reimburses directors for their out-of-pocket costs incurred in attending Board or Board committee meetings.

During the fiscal year ended November 30, 2012, the Company paid or accrued the sum of CAD 60,932 to Dawson Geological Consultants Ltd., a geological consulting company owned by James Dawson, a director of the Company, for geological consulting services provided. Of this amount, CAD 45,350 was for consulting fees (on an hourly basis) and CAD 15,582 was for office costs, mapping/data compilation, assays, printing, travel and related expenses in connection with such geological consulting services.

Mr. Van Alphen is the President and Secretary and sole director of Bosch. The agreement may be terminated by Bosch upon thirty days' notice, and by the Company on one years' notice (thirty days' notice in the case of certain specified events, such as the bankruptcy of Bosch or if, in rendering services under the agreement, Bosch violates any laws or engages in activities which could or might reasonably be expected to bring the reputation of the Company into disrepute, or if Bosch is in material default under the agreement). If the Company terminates the agreement (other than in cases where thirty days' notice is prescribed), the Company may, as an alternative to having Bosch provide services during the twelve month notice period, require Bosch to immediately cease rendering services thereunder, in which case the Company is then required to pay to Bosch the sum of CAD 180,000 (representing the fee payable to Bosch for providing services under the agreement during the twelve-month notice period).

PARTICULARS OF MATTERS TO BE ACTED UPON

Annual Re-Approval of 2004 Incentive Stock Option Plan

Background

Pursuant to Policy 4.4 of the TSXV, all TSXV listed companies are required to adopt a stock option plan prior to granting incentive stock options. Accordingly, in 2004, the Board of Directors of the Company established the Plan. The purpose of the Plan is to attract and motivate directors, senior officers, employees, consultants and others providing services to the Company and its subsidiaries, and thereby advance the Company's interests, by affording such persons with an opportunity to acquire an equity interest in the Company through the issuance of stock options. As a "rolling" stock option plan, the Plan is required to be re-approved by the shareholders each year at the Company's Annual General Meeting.

General Description of the Plan

The material terms of the Plan are as follows:

1. Options may be granted to Employees, Senior Officers, Directors, Non-Employee Directors, Management Company Employees, and Consultants (all as defined in the Plan) of the Company and its Affiliates who are, in the opinion of the Compensation Committee, in a position to contribute to the success of the Company or any of its Affiliates.
2. The aggregate number of shares which may be issued pursuant to options granted under the Plan, unless otherwise approved by shareholders, may not exceed that number which is equal to 10% of the common shares issued and outstanding at the time of the grant.
3. The number of shares subject to each option will be determined by the Board, or a duly appointed committee of the Board (in the case of the Company, this is the Compensation Committee), provided that the aggregate number of shares reserved for issuance pursuant to options granted to:
 - (a) insiders during any 12 month period may not exceed 10% of the issued shares;
 - (b) any one individual during any 12 month period may not exceed 5% of the issued shares;
 - (c) any one consultant during any 12 month period may not exceed 2% of the issued shares; and
 - (d) all persons employed to provide investor relations activities (as a group) may not exceed 2% of the issued shares during any 12 month period; in each case calculated as at the date of grant of the option, including all other shares under option to such person at that time.
4. The exercise price of an option may not be set at less than the minimum price permitted by the TSXV (currently the closing price of the common shares on the TSXV on the day prior to an option grant less the maximum discount permitted by the TSXV).
5. Options may be exercisable for a period of up to ten years from the date of grant.
6. The Plan does not contain any specific provisions with respect to the causes of cessation of entitlement of any optionee to exercise his option, provided, however, that the directors may, at the time of grant, determine that an option will terminate within a fixed period (which is shorter than the option term) upon the ceasing of the optionee to be an eligible optionee or upon the death of the optionee, provided that, in the case of the death of the optionee, an option will be exercisable only within one year from the date of the optionee's death.
7. Options are non-assignable and non-transferable.
8. The Plan does not provide for any specific vesting periods. The Compensation Committee may determine when any option will become exercisable and any applicable vesting periods, and may determine that an option shall be exercisable in instalments. However, options granted to consultants engaged to perform investor relations activities must be subject to a vesting

requirement, whereby such options will vest over a period of not less than 12 months, with a maximum of 25% vesting in any 3 month period.

9. Notwithstanding the expiry date of an option set by the Board, the expiry date will be adjusted without being subject to the discretion of the Board or the Compensation Committee to take into account any blackout period imposed on the optionee by the Company. If the expiry date falls within a blackout period, then the new expiry date will be the close of business on the tenth business day after the end of such blackout period. Alternatively, if the expiry date falls within two business days after the end of such a blackout period, then the new expiry date will be the difference between 10 business days reduced by the number of business days between the expiry date and the end of such blackout period.
10. On the occurrence of a takeover bid, issuer bid or going private transaction, the Board will have the right to accelerate the date on which any option becomes exercisable and may, if permitted by applicable legislation, permit an option to be exercised conditional upon the tendering of the shares thereby issued to such bid and the completion of, and consequent taking up of such shares under, such bid or going private transaction.
11. The exercise price per optioned share under an option may be reduced, at the discretion of the Compensation Committee, if:
 - (a) at least six months has elapsed since the later of the date such option was granted and the date the exercise price for such option was last amended; and
 - (b) disinterested shareholder approval is obtained for any reduction in the exercise price under an option held by an insider of the Company.
12. The Company has the right to require optionees to pay an amount equal to the required income tax withholding due upon the exercise of stock options or, in the alternative, to arrange for the sale of a portion of the shares which would otherwise be delivered to the optionee in order to raise sufficient funds to pay the required withholding; and
13. The Company does not and will not provide any financial assistance to any optionee in connection with the exercise of any option.

A copy of the Plan may be inspected at the head office of the Company, Suite 2300, 1177 West Hastings Street, Vancouver, British Columbia, Canada V6E 2K3 during normal business hours at any time up to the Meeting and at the Meeting. In addition, a copy of the plan will be mailed, free of charge, to any holder of common shares who requests, in writing, a copy from the Vice-President and General Counsel of the Company at Suite 2300, 1177 West Hastings Street, Vancouver, British Columbia, Canada V6E 2K3.

Notice of options granted under the Plan must be given to the TSXV on a monthly basis. Any amendments to the Plan must also be approved by the TSXV and, if necessary, by the shareholders of the Company prior to becoming effective.

Outstanding Options

As at August 28, 2013, there were incentive stock options outstanding under the Plan to purchase an aggregate of 5,695,000 common shares, representing 92.2% of the available options, and 9.2% of the issued common shares, as at that date. As at August 28, 2013, options to purchase a total of 6,175,361 common shares (representing 10% of the outstanding common shares as at that date) are permitted to be granted under the Plan, and therefore options to purchase an additional 480,361 common shares (representing 0.8% of the outstanding common shares as at that date) are available for grant under the Plan.

Annual Shareholder Re-approval of Plan

Accordingly, shareholders will be asked at the Meeting to consider and, if thought fit, pass an ordinary resolution in substantially the following form:

“RESOLVED, as an ordinary resolution, that the Company’s 2004 Incentive Stock Option Plan, as described in the Company’s Information Circular dated August 28, 2013, and the grant of options thereunder in accordance therewith, be approved.”

Disinterested shareholder approval of the foregoing resolution is not required because the Plan cannot result at any time in:

1. the number of common shares reserved for issuance under stock options granted to insiders exceeding 10% of the issued common shares;
2. the grant to insiders, within a 12 month period, of a number of options exceeding 10% of the issued common shares; or
3. the issuance to any one optionee, within a 12 month period, of a number of common shares exceeding 5% of the issued common shares.

The Board considers that the ability to grant incentive stock options is an important component of its compensation strategy and is necessary to enable the Company to attract and retain qualified directors, officers, employees and consultants. **The Board therefore recommends that shareholders vote “For” the resolution re-approving the Company’s 2004 Incentive Stock Option Plan.** If the Plan is not re-approved by the shareholders, existing options will not be affected, but new options granted by the Company will be required to be approved by the shareholders before they can be exercised by the holders thereof.

ANY OTHER MATTERS

Management of the Company knows of no matters to come before the Meeting other than those referred to in the Notice of Meeting accompanying this Information Circular. However, if any other matters properly come before the Meeting, it is the intention of the persons designated by management of the Company in the form of proxy accompanying this Information Circular to vote the same in accordance with their best judgment of such matters.

SCHEDULE “B”

STATEMENT OF CORPORATE GOVERNANCE PRACTICES

Corporate governance relates to the activities of the board of directors of the Company (the “Board”), the members of which are elected by and are accountable to the shareholders, and takes into account the role of the individual members of management who are appointed by the Board and who are charged with the day-to-day management of the Company. The Board is committed to sound corporate governance practices that are both in the interest of its shareholders and contribute to effective and efficient decision making. National Policy 58-201 *Corporate Governance Guidelines* establishes corporate governance guidelines that apply to all public companies. The Company has reviewed its own corporate governance practices in light of these guidelines. In certain cases, the Company’s practices comply with the guidelines, however, the Board considers that some of the guidelines are not suitable for the Company at its current stage of development and therefore these guidelines have not been adopted. National Instrument 58-101 *Disclosure of Corporate Governance Practices* mandates disclosure of corporate governance practices for Venture Issuers in Form 58-101F2, which disclosure is set out below.

Structure, Composition and Mandate of the Board

The Board is currently composed of four (4) directors. Mr. Paul Matysek, a current director of the Company, is not standing for re-election as a director at the Meeting. Mr. Leonard Harris has agreed to stand for election as a director. Thus, three of the four proposed nominees for election as directors at the Meeting are currently directors of the Company, while one is a new nominee. NP 58-201 suggests that the board of directors of every listed company should be constituted with a majority of individuals who qualify as “independent” directors under NI 52-110, which provides that a director is independent if he or she has no direct or indirect “material relationship” with the Company. “Material relationship” is defined as a relationship that could, in the view of the Board, be reasonably expected to interfere with the exercise of a director’s independent judgment. The TSXV requires that each listed company have at least two independent (as determined under NI 52-110) directors. Of the proposed nominees, Mr. Strong and Mr. Harris are considered by the Board to be “independent” within the meaning of NI 52-110. Mr. Van Alphen is not considered to be independent as he is the President and Chief Executive Officer (“CEO”), and therefore a member of management. Mr. Dawson is not independent as he, through his geological consulting company, occasionally provides, and is paid for, geological consulting services to the Company and is therefore deemed not to be independent under 52-110. Thus, following the Meeting, the Company will meet the TSXV requirements to have at least 2 independent directors, even though a majority of the board will not be independent. In assessing Form 58-101F2 and making the foregoing determinations, the circumstances of each director have been examined in relation to a number of factors, including discussions with each director and a review of the resumes of the directors and the corporate relationships and other directorships held by each of them.

The Company does not currently have a Chairman of the Board and, given the current size and makeup of the Board, does not consider that a Chairman is necessary. The non-management directors are able to exercise their responsibilities for independent oversight of management by virtue of forming a majority of the board and their ability to meet as a group independently of any management directors whenever deemed necessary. In this regard, the independent directors met independently of the non-independent director once during the financial year ended November 30, 2012. The Board will give consideration to appointing an “independent” member as Chairman at such time as it believes that such a position is required.

The mandate of the Board, as prescribed by the BCBCA, is to manage or supervise the management of the business and affairs of the Company and to act with a view to the best interests of the Company. In doing so, the Board oversees the management of the Company’s affairs directly and through its various committees. In fulfilling its mandate, the Board, among other matters, is responsible for reviewing and approving the Company’s overall business strategies, reviewing and approving significant acquisitions and capital investments; reviewing major strategic initiatives to ensure that the Company’s proposed actions accord with shareholder objectives; reviewing succession planning; assessing management’s performance against industry standards; reviewing and approving the reports and other disclosure issued to shareholders; ensuring the effective operation of the Board; and safeguarding shareholders’ equity interests through the optimum utilization of the Company’s capital resources. The Board also takes responsibility for identifying the

principal risks of the Company's business and for ensuring these risks are effectively monitored and mitigated to the extent reasonably practicable. At this stage of the Company's development, the Board does not believe it is necessary to adopt a written mandate, as sufficient guidance is found in the applicable corporate legislation and regulatory policies. However, as the Company grows, the Board may determine it is appropriate to develop a formal written mandate.

In keeping with its overall responsibility for the stewardship of the Company, the Board is responsible for the integrity of the Company's internal control and management information systems and for the Company's policies respecting corporate disclosure and communications.

Each member of the Board understands that he is entitled, at the cost of the Company, to seek the advice of an independent expert if he reasonably considers it warranted under the circumstances. No director found it necessary to do so during the financial year ended November 30, 2012.

The positions of President and CEO are combined, and the President and CEO is also a director. The Board believes the Company is well serviced and the independence of the Board from management is not compromised by these combined roles. The Board does not, and does not consider it necessary to, have any formal structures or procedures in place to ensure that it can function independently of management. The Board believes that its current composition, in which only one of four members is currently a member of management, is sufficient to ensure that the Board can function independently of management.

Orientation and Continuing Education of Directors

New directors are briefed on the Company's current property holdings, ongoing exploration programs, overall strategic plans, short, medium and long term corporate objectives, financials status, general business risks and

mitigation strategies, and existing company policies. There is no formal orientation for new members of the Board. This is considered to be appropriate, given the Company's size and current level of operations, the ongoing interaction amongst the directors and the low director turn-over. However, if the growth of the Company's operations warrants it, it is possible that a formal orientation process would be implemented.

The skills and knowledge of the Board of Directors as a whole is such that no formal continuing education process is currently deemed required. The Board is comprised of individuals with varying backgrounds, who have, both collectively and individually, extensive experience in running and managing public companies, particularly in the natural resource sector and involving non-Canadian mineral properties. Board members are encouraged to communicate with management, auditors and technical consultants to keep themselves current with industry trends and developments and changes in legislation, with management's assistance. The directors are advised that, if a director believes that it would be appropriate to attend any continuing education event for corporate directors, the Company will pay for the cost thereof. Board members have full access to the Company's records. Reference is made to the table under the heading "Election of Directors" for a description of the current principal occupations of the members of the Board.

Ethical Business Conduct

The Board expects management to operate the business of the Company in a manner that enhances shareholder value and is consistent with the highest level of integrity. Management is expected to execute the Company's business plan and to meet performance goals and objectives. To this end, in June 2007 the Board adopted a "Code of Business Conduct and Ethics" (the "Code") for its directors, officers and employees and, in appropriate cases, consultants. Interested shareholders may obtain a copy at www.sedar.com. Pursuant to the Code, the Company has appointed its Vice-President and General Counsel to serve as the Company's Ethics Officer to ensure adherence to the Code, reporting directly to the Board. Training in the Code is included in the orientation of new employees and, to ensure familiarity with the Code, directors, officers and employees are asked to read the Code and sign a Compliance Certificate annually. Directors, officers and employees are required to report any known violations of the Code to the Vice-President and General Counsel or the Chairman of the Audit Committee or, alternately, to the Company's outside U.S. or Canadian counsel.

There have not been, since adoption of the Code in June, 2007, any material change reports filed that pertain to any conduct of a director or executive officer that constitutes a departure from the Code.

In addition to the provisions of the Code, directors and senior officers are bound by the provisions of the Company's Articles and the BCBCA which set forth how any conflicts of interest are to be dealt with. In particular, any director who has a material interest in a particular transaction is required to disclose such interest and to refrain from voting with respect to the approval of any such transaction.

In June, 2007, the Board has also adopted a "Share Trading Policy", which prescribes rules with respect to trading in securities of the Company where there is any undisclosed material information or a pending material development. Strict compliance with the provisions of this policy is required, with a view to enhancing investor confidence in the Company's securities and contributing to ethical business conduct by the Company's personnel.

The Board has also created a Sustainable Development Committee in order to reflect the Company's continuing commitment to improving the environment and ensuring that its activities are carried out in a safe, sustainable and environmentally sound manner (see "Other Board Committees" below).

Nomination of Directors

The Corporate Governance and Nominating Committee ("CGN Committee") of the Board is responsible for reviewing proposals for new nominees to the Board, and conducting such background reviews, assessments, interviews and other procedures as it believes necessary to ascertain the suitability of a particular nominee. The selection of potential nominees for review by the CGN Committee are generally the result of recruitment efforts by the individual incumbent directors, including both formal and informal discussions among the directors and with the President and CEO, and are usually based upon the desire to have a specific set of skills or expertise included on the Board. The appointment of new directors (either to fill vacancies or to add additional directors as permitted by applicable corporate legislation) or the nomination for election as a

director of a person not currently a director by the shareholders at an annual general meeting is carried out by the Board, based on the recommendation(s) of the CGN Committee.

Compensation

The Company currently pays its directors an annual retainer and a per-meeting fee. The payment and amount of such fees was suggested by the CEO and approved by the Compensation Committee, which is made up solely of independent directors. In addition, non-management directors are entitled to receive, and have been granted, incentive stock options. The quantity and quality of the Board compensation is reviewed on an ongoing basis by the CEO with the input of the Compensation Committee. At present, the Board is satisfied that the current Board compensation arrangements adequately reflect the responsibilities and risks involved in being an effective director of the Company. The Compensation Committee monitors, on an ongoing basis, the compensation paid to the directors and CEO's of natural resource companies similar in size to the Company (primarily through a review of the information circular disclosure filed by such companies). The Compensation Committee, if thought appropriate, is authorized to engage the services of a benefits/compensation consultant in order to assist it in determining the right compensation mix. However, to date, it has not found it necessary to do so. At the present time, a management company controlled by the CEO receives a monthly consulting fee in consideration of providing management consulting services, which services are provided by the CEO on behalf of such consulting company. The amount of the monthly fee was set by negotiation between the CEO and the independent directors on the Board at that time (at the time of the appointment of the CEO, there was no Compensation Committee).

The timing of the grant, and number of shares made subject to option, with respect to stock options granted to the members of the Board and to the CEO is recommended by the CEO, reviewed and approved (or revised, if thought appropriate) by the Compensation Committee, and implemented by a resolution of the Board. The review of proposed option grants by the Compensation Committee (which is composed of independent directors) and the implementation thereof by the Board (which is comprised of a majority of non-management directors) provides the independent/non-management director(s) with significant input into compensation decisions.

Other Board Committees

Committees of the Board are an integral part of the Company's governance structure. The current standing committees of the Board are the:

- Audit Committee
- Compensation Committee
- Sustainable Development Committee
- Corporate Governance and Nominating Committee

Disclosure with respect to the Audit Committee, as required by NI 52-110, is contained in Schedule "A" to this Information Circular. Details of the composition and function of the remaining standing committees (each of which was formed in June, 2007) is as follows:

Compensation Committee ("CC")

The CC has a written charter. The overall purpose of the CC is to implement and oversee human resources and compensation policies and best practices for recommendation to the Board for approval and implementation. The responsibilities of the Compensation Committee generally include: (1) recommending human resources and compensation policies to the Board for approval and thereafter implementing such policies; (2) ensuring the Company has programs in place to attract and develop management of the highest calibre and a process to provide for the orderly succession of management; (3) assessing and reporting to the Board on the performance of the CEO; (4) reviewing the compensation of the CEO and other officers and members of the Board and making recommendations in respect thereof to the Board; (5) reviewing and approving any proposed

amendments to the Company's incentive stock options plan; and (6) making recommendations to the Board concerning stock option grants.

Sustainable Development Committee ("SDC")

Maurice Strong (Chair)

Paul Matysek

The SDC has a written charter. The overall purpose of the SDC is to assist the Board in fulfilling its oversight responsibilities with respect to the Company's continuing commitment to improving the environment and ensuring that its activities are carried out, and that its facilities are operated and maintained, in a safe and environmentally sound manner and reflect the ideals and principles of sustainable development. The primary function of the SDC is to monitor, review and provide oversight with respect to the Company's policies, standards, accountabilities and programs relative to health, safety, community relations and environmental-related matters. The SDC will also advise the Board and make recommendations for the Board's consideration regarding health, safety, community relations and environmental-related issues.

Corporate Governance & Nominating Committee ("CGNC")

Maurice Strong (Chair)

Paul Matysek

The CGNC has a written charter. The role of the CGNC is to (1) develop and monitor the effectiveness of the Company's system of corporate governance; (2) establish procedures for the identification of new nominees to the Board and lead the candidate selection process; (3) develop and implement orientation procedures for new directors; (4) assess the effectiveness of directors, the Board and the various committees of the Board; (5) ensure appropriate corporate governance and the proper delineation of the roles, duties and responsibilities of management, the Board and its committees; and (6) assist the Board in setting the objectives of the CEO and evaluating the performance of the CEO.

It is anticipated that, if elected as a director at the Meeting, Mr. Harris will fill the vacancies on the foregoing committees, and the Audit Committee, created by Mr. Matysek ceasing to be a director.

Assessments

The Board has traditionally monitored, but not formally assessed, its performance or the performance of individual directors or committee members or their contributions. The CGNC has, as part of its mandate, the responsibility for producing reports with respect to performance evaluations of the President and CEO, the Board as a whole, the individual committees of the Board and individual directors, on an annual basis. The NCG Committee is in the process of determining the appropriate processes for such evaluations, and is reviewing the processes adopted by similar sized public natural resource companies in order to assist it in this regard.
