## **NOTES TO FINANCIAL STATEMENTS**

**For Period Ending 30 June 2022**

### **Note 1. Organization, History and Business**

Hydro Power Technologies Inc. (“the Company”) was incorporated in Nevada on April 1, 2005. On March 24, 2006, the name was changed to Playbox (US) Inc. and the company domiciled was changed to Wyoming.

On April 8, 2020, the Company filed an amendment to the Articles of Incorporation, which was approved by the Secretary of State for the State of Wyoming. This amendment changed the name of the Company to Hydro Power Technologies, Inc. On March 12, 2021, FINRA granted the Application for the Name Change.

### **Note 2. Summary of Significant Accounting Policies**

#### **Revenue Recognition**

Revenue is derived from contracts with our consumers. Revenue is recognized in accordance with ASC 605. As such, the Company identifies performance obligations and recognizes revenue over the period through which the Company satisfies these obligations. Any contracts that by nature cannot be broken down by specific performance criteria will recognize revenue on a straight-line basis over the contractual term of period of the contract.

#### **Accounts Receivable**

Accounts receivable is reported at the customers’ outstanding balances, less any allowance for doubtful accounts. Interest is not accrued on overdue accounts receivable.

#### **Allowance for Doubtful Accounts**

An allowance for doubtful accounts on accounts receivable is charged to operations in amounts sufficient to maintain the allowance for uncollectible accounts at a level management believes is adequate to cover any probable losses. Management determines the adequacy of the allowance based on historical write-off percentages and information collected from individual customers. Accounts receivables are charged off against the allowance when collectability is determined to be permanently impaired.

#### **Stock Based Compensation**

When applicable, the Company will account for stock-based payments to employees in accordance with ASC 718, “Stock Compensation” (“ASC 718”). Stock-based payments to employees include grants of stock, grants of stock options and issuance of warrants that are recognized in the consolidated statement of operations based on their fair values at the date of grant.

The Company accounts for stock-based payments to non-employees in accordance with ASC 505-50, “Equity-Based Payments to Non-Employees.” Stock-based payments to non-employees include grants of stock, grants of stock options and issuances of warrants that are recognized in the consolidated statement of operations based on the value of the vested portion of the award over the requisite service period as measured at its then-current fair value as of each financial reporting date.

The Company calculates the fair value of option grants and warrant issuances utilizing the Binomial pricing model. The amount of stock-based compensation recognized during a period is based on the value of the portion of the awards that are ultimately expected to vest. ASC 718 requires forfeitures to be estimated at the time stock options are granted and warrants are issued to employees and non-employees, and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. The term “forfeitures” is distinct from “cancellations” or “expirations” and represents only the unvested portion of the surrendered stock option or warrant. The Company estimates forfeiture rates for all unvested awards when calculating the expense for the period. In estimating the forfeiture rate, the Company monitors both stock option and warrant exercises as well as employee termination patterns. The resulting stock-based compensation expense for both employee and non-employee awards is generally recognized on a straight-line basis over the period in which the Company expects to receive the benefit, which is generally the vesting period.

## **Loss per Share**

The Company reports earnings (loss) per share in accordance with ASC Topic 260-10, "Earnings per Share." Basic earnings (loss) per share is computed by dividing income (loss) available to common shareholders by the weighted average number of common shares available. Diluted earnings (loss) per share is computed similar to basic earnings (loss) per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive. Diluted earnings (loss) per share have not been presented since there are no dilutive securities.

## **Cash and Cash Equivalents**

For purpose of the statements of cash flows, the Company considers cash and cash equivalents to include all stable, highly liquid investments with maturities of three months or less.

## **Concentration of Credit Risk**

The Company primarily transacts its business with one financial institution. The amount on deposit in that one institution may from time to time exceed the federally insured limit.

## **Depreciation**

Equipment is stated at cost less accumulated depreciation. Major improvements are capitalized while minor replacements, maintenance and repairs are charged to current operations. Depreciation is computed by applying the straight-line method over the estimated useful lives, which are generally three to five years.

## **Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

## **Business segments**

ASC 280, "*Segment Reporting*" requires use of the "*management approach*" model for segment reporting. The management approach model is based on the way a company's management organizes segments within the company for making operating decisions and assessing performance. The Company determined it has one operating segment as of September 30, 2021.

## **Income Taxes**

The Company accounts for its income taxes under the provisions of ASC Topic 740, "Income Taxes." The method of accounting for income taxes under ASC 740 is an asset and liability method. The asset and liability method requires the recognition of deferred tax liabilities and assets for the expected future tax consequences of temporary differences between tax bases and financial reporting bases of other assets and liabilities.

## **Recent Accounting Pronouncements**

The Company continually assesses any new accounting pronouncements to determine their applicability to the Company. Where it is determined that a new accounting pronouncement affects the Company's financial reporting, the Company undertakes a study to determine the consequence of the change to its financial statements and assures that there are proper controls in place to ascertain that the Company's financials properly reflect the change. The Company currently does not have any recent accounting pronouncements that they are studying, and feel may be applicable.

## **Note 3. Income Taxes**

Deferred income tax assets and liabilities are computed annually for differences between financial statement and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized. Income tax expense is the tax payable or refundable for the period plus or minus the change during the period in deferred tax assets and liabilities.

The effective tax rate on the net loss before income taxes differs from the U.S. statutory rate as follows:

06/30/2022

U.S statutory rate

34.00%

Less valuation allowance	-34.00%
Effective tax rate	0.00%

The significant components of deferred tax assets and liabilities are as follows:

06/30/2022 Deferred tax assets

Net operating profit/losses	\$	0
Deferred tax liability		
Net deferred tax assets		(\$0)
Less valuation allowance		0
Deferred tax asset - net valuation allowance	\$	0

On an interim basis, the Company has a net operating loss carryover of approximately \$683,024 available to offset future income for income tax reporting purposes, which will expire in various years through 2032, if not previously utilized. However, the Company's ability to use the carryover net operating loss may be substantially limited or eliminated pursuant to Internal Revenue Code Section 382.

The Company adopted the provisions of ASC 740-10-50, formerly FIN 48, and "Accounting for Uncertainty in Income Taxes". The Company had no material unrecognized income tax assets or liabilities as of March 31, 2021.

The Company's policy regarding income tax interest and penalties is to expense those items as general and administrative expense but to identify them for tax purposes. During the period ending March 31, 2021, there were no income tax, or related interest and penalty items in the income statement, or liabilities on the balance sheet. The Company files income tax returns in the U.S. federal jurisdiction and Nevada state jurisdiction. We are not currently involved in any income tax examinations.

**Note 4. Related Party Transactions** on March 28, 2008, Kars Capital purchased the outstanding note with a balance of \$74,750 from Delta Music. On July 19, 2011, Kars Capital Inc converted the \$64,750 of the \$74,750 outstanding note into 64,750 Preferred Series E shares. The beneficial owner of Kars Capital, Inc. is Stanley Larsen of Alberta, Canada and the beneficial Shareholder of Delta Music is Laurence Adams, 222 Cray Avenue, Orrington, Kent BR5 3PZ UK . These transactions have been resolved and Kars Capital, Stanley Larsen and Delta Music are no longer affiliated with the Company.

#### **Note 5. Stockholders' Equity**

## Note 9. Going Concern

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. Currently, the Company has limited operating history and, in its June 30, 2022 Financial Reports incurred operating losses.

These factors raise substantial doubt about the Company's ability to continue as a going concern. Management believes that the Company's capital requirements will depend on many factors including the success of the Company's development efforts and its efforts to raise capital. Management also believes the Company needs to raise additional capital for working capital purposes. There is no assurance that such financing will be available in the future. The conditions described above raise substantial doubt about our ability to continue as a going concern. The financial statements of the Company do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts and classifications of liabilities that might be necessary should the Company be unable to continue as a going concern.
